

EDAI1xxx & EDAI200x

Filter, adapter and Cover for placing Fan Unit in IP54 EDI Cabinet

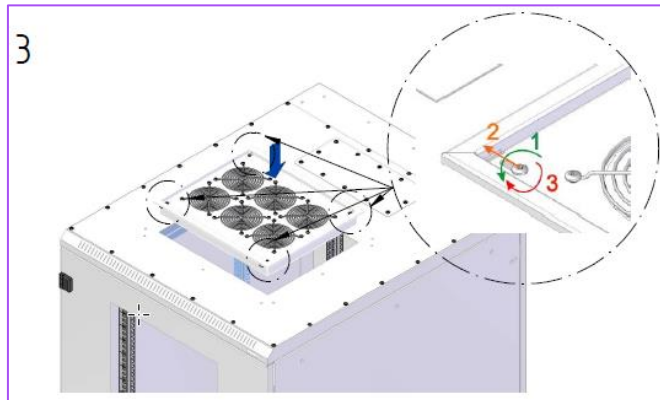

Ventilation solution for an IP54 EDI cabinet. This adapter, filter, and fan cover provide the opportunity to install standard fan units while maintaining a high level of ingress protection for the cabinet.

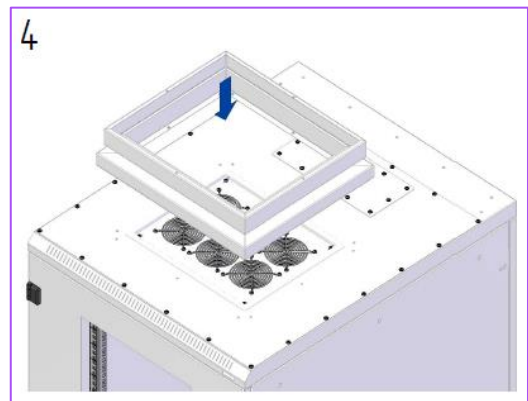

1 Remove top panel from EDI Cabinet

2 Install adapter of EDAI1xxx on cabinet. Adapter size should match cabinet's width / depth

3 Install Fan unit in adapter's cutout.

4 Mount cover holder of EDAI200x on adapter (Use enclosed sealer tape on top and bottom)
