Product Discontinuation Announcement – Hirschmann HiView

Dear Valued Customer,

This letter serves as your formal notification that Belden is discontinuing **Hirschmann HiView**, effective **March 31st, 2024**.

In order to meet the latest market and technology trends, Belden is constantly developing innovative and high-quality products and variants that complement and optimize our existing portfolio. Every product has a defined life cycle, and our products are typically characterized by a very long availability on the market. However, product discontinuation becomes inevitable over a period. We are currently working on integrating some of the HiView functionalities into our Network Management Software Industrial HiVision. These features will be available in future Industrial HiVision releases. More information can be found in the release notes. Even though Hirschmann HiView will not be continued, we are constantly innovating and working on new products. One of our newest software products is our PROVIZE Suite. You can download this product free of charge on our website.

The standard warranty terms apply to all products delivered up to the last delivery date. For more information on Belden's Long Term Product Support Policy for Industrial Networking products, please visit [Long Term Product Support \(LTPS\)](#). Active special contracts in place prior to the announcement date will be honored according to the terms of that contract, with regards to product availability, warranty, or support terms.
