Product Discontinuation Announcement – Hirschmann Rail Data Diode (RDD) Series Product Portfolio

Dear Valued Customer,

This letter serves as your formal notification that Belden is discontinuing Hirschmann products from the **Rail Data Diode (RDD) Series product portfolio**, effective January 31st, 2026.

To meet the latest market and technological trends, Belden is constantly developing innovative and high-quality products and variants that complement and optimize our existing portfolio. Every product has a defined life cycle, and our products are typically characterized by a very long availability on the market. However, product discontinuation becomes inevitable over a period. For example, components in these products may be difficult to obtain or may no longer be available on the market.

Belden has a limited stock of these products to meet demand until the last delivery date. You can find the affected products in the attached list.

The standard warranty terms apply to all products delivered up to the last delivery date. For more information on Belden's Long Term Product Support Policy for Industrial Networking products, please visit [Long Term Product Support \(LTPS\)](#). Active special contracts in place prior to the announcement date will be honored according to the terms of that contract, with regards to product availability, warranty, or support terms.

Discontinuation Milestones – for Hirschmann Rail Data Diode (RDD) Series products

Milestones	Date
Discontinuation Announcement Date	November 1st, 2025
Last Order Date	January 31st, 2026
Last Delivery Date	April 30th, 2026
Last Service Date	April 30th, 2031

The delivery of this product will stop after the date of last delivery as outlined herein. Final orders can only be accepted on or before the last order date and are subject to availability. Early ordering is strongly recommended!
