Product: [24H Wall Mount](#) ⊿

XHW Series Wall Mount

Product Description

Belden Wall-Mount Cabinet Series - 24"H (12RU) x 23"W with Offerings of 6" Deep, 24" Deep or 30" Deep, Offering Polycarbonate Door, Perforated Door or Solid Door Options.

Technical Specifications

Application

Product Overview:	Wall-Mount Cabinets provide IT/Networking hosting in spaces that often serve another primary function, and where space optimization is critical. They are designed for applications that require secure hosted devices and are ideal for locations where floor mounting space is limited, as is common in retail establishments, schools and offices. Available in mounting unit increments of 12RU, 19RU and 26RU, Belden Wall-Mount Cabinets offer great aesthetics, rugged construction, optimized equipment access and flexible cable management and access features. Sturdy welded steel construction. Durable black powdercoat finish. Perforated, Polycarbonate or Solid front door options. Door swing direction is field reversible. Side vent pattern to accommodate two 4" fans. Laser knockouts for conduit and cable entry located on the top & bottom of the rear section of the cabinet.
Features:	Sturdy welded steel construction, Durable black powdercoat finish, Front door options: perforated, clear polycarbonate, solid, Door swing direction is field reversible, Lockable front door and rear section, Top and bottom laser knockouts for conduit and cable entry, Side vent pattern allows optional 4" fan mounting to accommodate up to 2 fans, One pair of 12-24 tapped 19" EIA depth adjustable mounting rails (includes mounting hardware) in cabinets 24"D or 30"D, Swing-out mid-section for rear access to equipment, Load rating 300 lb.
Environmental Space:	Indoor

Construction and Dimensions

Rack Units:	12U
Height:	24.0 in

Mechanical Characteristics

Load Capacity:	300 lb
Rail Tapping:	12-24

Environmental and Overall Characteristics

Finish:	Black Powdercoat Finish
Material:	Steel
Color:	Black
