Variants

Item #	Color	Length
FRCV1YLR	Yellow	5.039 in

Product Notes

Notes:	This product provides a vertical tee connection, with any 50mm straight ducting. It is used to feed optical fibre cords to a level below the existing level, to either a rack or other ducting. It is slotted to allow retro-fitting of optical fibre cords without the need for removal of the duct system parts. It requires a standard joiner, at each interface, which provides a smooth and strong joint.
