

Product: [Terminal Cable, M12-8pin to DB9](#) 

The terminal cable enables a local connection from an external management station to the serial interface of a network device.

Product Description

The terminal cable enables a local connection from an external management station (PC with corresponding terminal emulation) to the serial interface of a network device (Ethernet switch, wireless access point or firewall). This gives you the option to set up a connection to the Command Line Interface (CLI) and to the system monitor.

Technical Specifications

Product description

Type:	Terminal Cable, M12-8pin to DB9
Description:	The terminal cable enables a local connection from an external management station (PC with corresponding terminal emulation) to the serial interface of a network device (Ethernet switch, wireless access point or firewall). This gives you the option to set up a connection to the Command Line Interface (CLI) and to the system monitor.
Part Number:	942087001
Cable Length:	1.5 m

Software

Diagnostics:	Dialog window on the PC or laptop
--------------	-----------------------------------

Ambient conditions

Operating temperature:	0-+60 °C
Storage/transport temperature:	-20-+80 °C
Relative humidity (non-condensing):	10-95 %

Mechanical construction

Weight:	125 g
---------	-------

Reliability

Guarantee:	24 months (please refer to the terms of guarantee for detailed information)
------------	---

Scope of delivery and accessories

Scope of delivery:	Cable
--------------------	-------
